DETAILED ACTION

This office action is in response to Request for Continued Examination filed November 13, 2009. Applicant amended claims 9, 11, 22, 24, 35 and 37. Claims 9-13, 22-26 and 35-39 are still pending.

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 9-12, 22-25 and 35-38 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Garcia et al. (US 2005/0256766 A1).

Regarding claims 9, 10-13, 22, 23, 25, 26 and 35-39, Garcia teaches causing a bidding interface to be displayed *to at least two bidders* on at least one display per bidder (see [0065]), the bidding interface comprising functionality to allow a bidder to bid for a search string and user attribute combination; *wherein the search string is input by a user and the user attribute is an attribute of a user who input the search string (limiting parameter, such as geographic identifier, IP address etc as specified by a user or by a computer (cookie) (see [0061]-[0066], [0075]) ; receiving the search string and user attribute and generating at least one search result in response to the search string and displaying the advertisement correlated with the winning bid together with a search result to the end user; receiving at least one bid for the search string and attribute combination; wherein determining the winning bid is based on a monetary amount of the bid (see [0064]-[0073], [0079]-[0085]).*
